

## Module Factsheet: Mobile apps

Cascade's Mobile Apps module can allow both your HR team and wider organisation to engage even further with the Cascade HR system. Cascade users can now utilise the Mobile Apps module to access their tasks, book holidays, and even check their payslips 'on the move' with a web-enabled mobile device.

### Key Benefits

- **Employee access**

Employees can now access personal details, make holiday requests, and see their payslip amongst other features, all whilst on the move. This module is perfect for people who may not be office-based, such as construction workers, security guards, field sales, distribution workers, surveyors, etc. In fact, the Mobile Apps module is perfect for anyone who does not use a PC or laptop on a daily basis.

- **Managing anywhere**

Line managers can also fully access Cascade Mobile Apps. Via easy to navigate screens, manager at all levels are able to view their teams' attendance levels, authorise requests, manage holidays, and review outstanding tasks, as well as fully managing their own employee details.

- **Powerful features, fully integrated**

Cascade Mobile Apps allows powerful, intuitive features associated with our .NET HR and Payroll system to be available anywhere, at any time.

- **Device independent**

You do not need a special device or software to access Cascade Mobile Apps. Cascade Mobile Apps is available via iPhone, Android, Windows Mobile, iPad, Blackberry, or any other suitable smartphone or tablet device.

- **Browser independent**

You can even access Cascade Mobile Apps from your PC or Laptop. This is perfect for any employee who may regularly travel for work, and may find themselves without Internet Explorer and unable to access their normal Self-Service system.

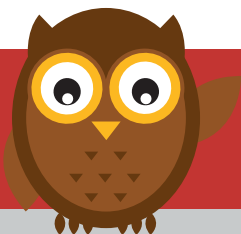

### What our clients say...

"More employees can now receive online payslips and submit leave requests electronically. The Cascade Mobile Apps module has really helped engage our remote workforce and help them embrace new technology through use of Cascade Mobile on their existing PDAs."

Pay and Reward Manager, Wakefield & District Housing

"Our operatives do not get to use a computer in their working day but can access their information via their PDA's or mobile phones...again, they feel much more in control."

HR Information & Performance Manager, First Wessex
